This very special tour of Bhutan, the last Buddhist kingdom in the Himalayas and the world's only carbon negative country and, will provide insight into:

- » **The people and their livelihoods**— some lodged in the 16th century and some as current as today
- » **Geography**— from the temperate midlands into the foothills of the Himalayas, across rivers and through forests
- » **An amazing culture**— the unique aspects of Tibetan Buddhism and its manifestations in all Bhutanese life
- » **Stunning arts and architecture**— from exquisite mandalas on walls and thankas to the arrangement of buildings in an ancient monastery, the beauty of Bhutan will astound you
- » **The emerging government**— how does this small constitutional monarchy focus on Gross Domestic Happiness, balancing the needs for modernization and economic growth with the urgency of environmental protection, while hovering between political and economic giants China on the north and India to the south?

*"This trip to Bhutan was pure delight! Our knowledgeable guides covered the cultural, historical and religious aspects and Larry gave us spirituality, poetry, and group spirit, deepening and anchoring the experience in our life: priceless."*

## Additional Trip Option: The Jomolhari Loop

### Oct 13 – 20, 2017

Jomolhari Loop is the shortest of the Jomolhari trekking routes, which are the most popular treks in Bhutan. With altitude differences of 2,500m and nearly 5,000m, it offers a wide range of landscapes, fauna, and flora. The highlight of this trek is the spectacular view of Mount Jomolhari from Jomolhari Basecamp (Jangothang). Trekkers who want to avoid high passes and high altitude can choose an easier version of the Jomolhari Loop by retracing their steps from Jangothang (see days 1-2), while still having the majestic impressions of Mount Jomolhari.

## Itinerary:

### Day 1: OCT 13 Sharna Zampa - Thangthangkha

Distance 22 km, 7-8 hours, 770 m ascent, 10 m descent, camp altitude 3,610 m. On this long day, the trail continues with lots of small ups and downs. After going uphill through the river valley, the valley narrows gradually to a mere path which descends to a meadow where we will camp.

Distance 19 km, 5-6 hours, 480 m ascent, camp altitude 4,080 m. If you did not see Mt. Jomolhari the previous evening, you will still have a chance to get a great view early this morning. This trek continues up the Paro Chhu valley which widens into patches of alpine meadow.

### Day 3: OCT 15 Jangothang Halt

The rest day in Jangothang provides plenty of possibilities for day hikes with great views of lakes and snow capped mountains such as Jomolhari and Jichu Drake. There are good chances to spot some blue sheep on the upper slopes of the valley. Jangothang is a perfect environment for your acclimatization.

### Day 4: OCT 16 Jangothang to Soi Yaktsa

Distance 16km, six to seven hours, 810m ascent, 1,090m descent, camp altitude 3,800m. The trail leads to a last settlement in the valley and drops to the Paro Chhu. Passing the lake of Tshophu (4,380m) you will climb up steeply to Bhonte La pass at 4,890 m, the highest point of this trek route.

### Day 5: OCT 17 Soi Yaktsa to Thombu Shong

Distance 11km, four to five hours, 720m ascent, 340m descent, camp altitude 4,180m. The trail climbs 100m over a ridge to drop to another stream then. After crossing the Takhung La pass (4,520m), you descend to Thombu Shong, where your campsite sits next to three yak herder huts.
