

My community.
My choice.

MCE Energy Storage Program

August 5, 2020

MCE Energy Storage Program

- Dispatchable, fossil-free customer-sited storage for energy resilience

- MCE offsets the costs of customer-owned batteries & applies for state funding on customer behalf
- MCE programs the battery for daily charging and discharging
- Monthly on-bill credit of \$10-\$20, depending on storage size

Energy Storage Program Eligibility

- **Prioritizing most vulnerable and at-risk customers**
 - 2+ public safety power shutoffs and/or high fire threat districts
 - Critical facilities that provide a service to communities during emergencies
 - Low income, medically vulnerable
- **Storage must be paired with existing or planned solar**

Residential - Off-Grid Batteries for Medical Needs Customers

- MCE purchased 100 portable batteries for customers with electrical medical needs in preparation for power outages
- Partnering with local Centers for Independent Living to distribute batteries
- Minimize reliance on diesel generators

Marin Community Foundation

- Solar and storage
- Affordable multifamily housing and social safety net nonprofits in Marin County
- Catalyzing job training programs

Thank You
