# \$4.7M Set Aside for Member Agency Resilience Grants

- Unique opportunity to invest in energy resilience
- Applications are open and available
- Technical assistance available to help identify and prioritize projects, if no pre-identified projects
- Regional analysis and tools will support all jurisdictions

# Example Project Types

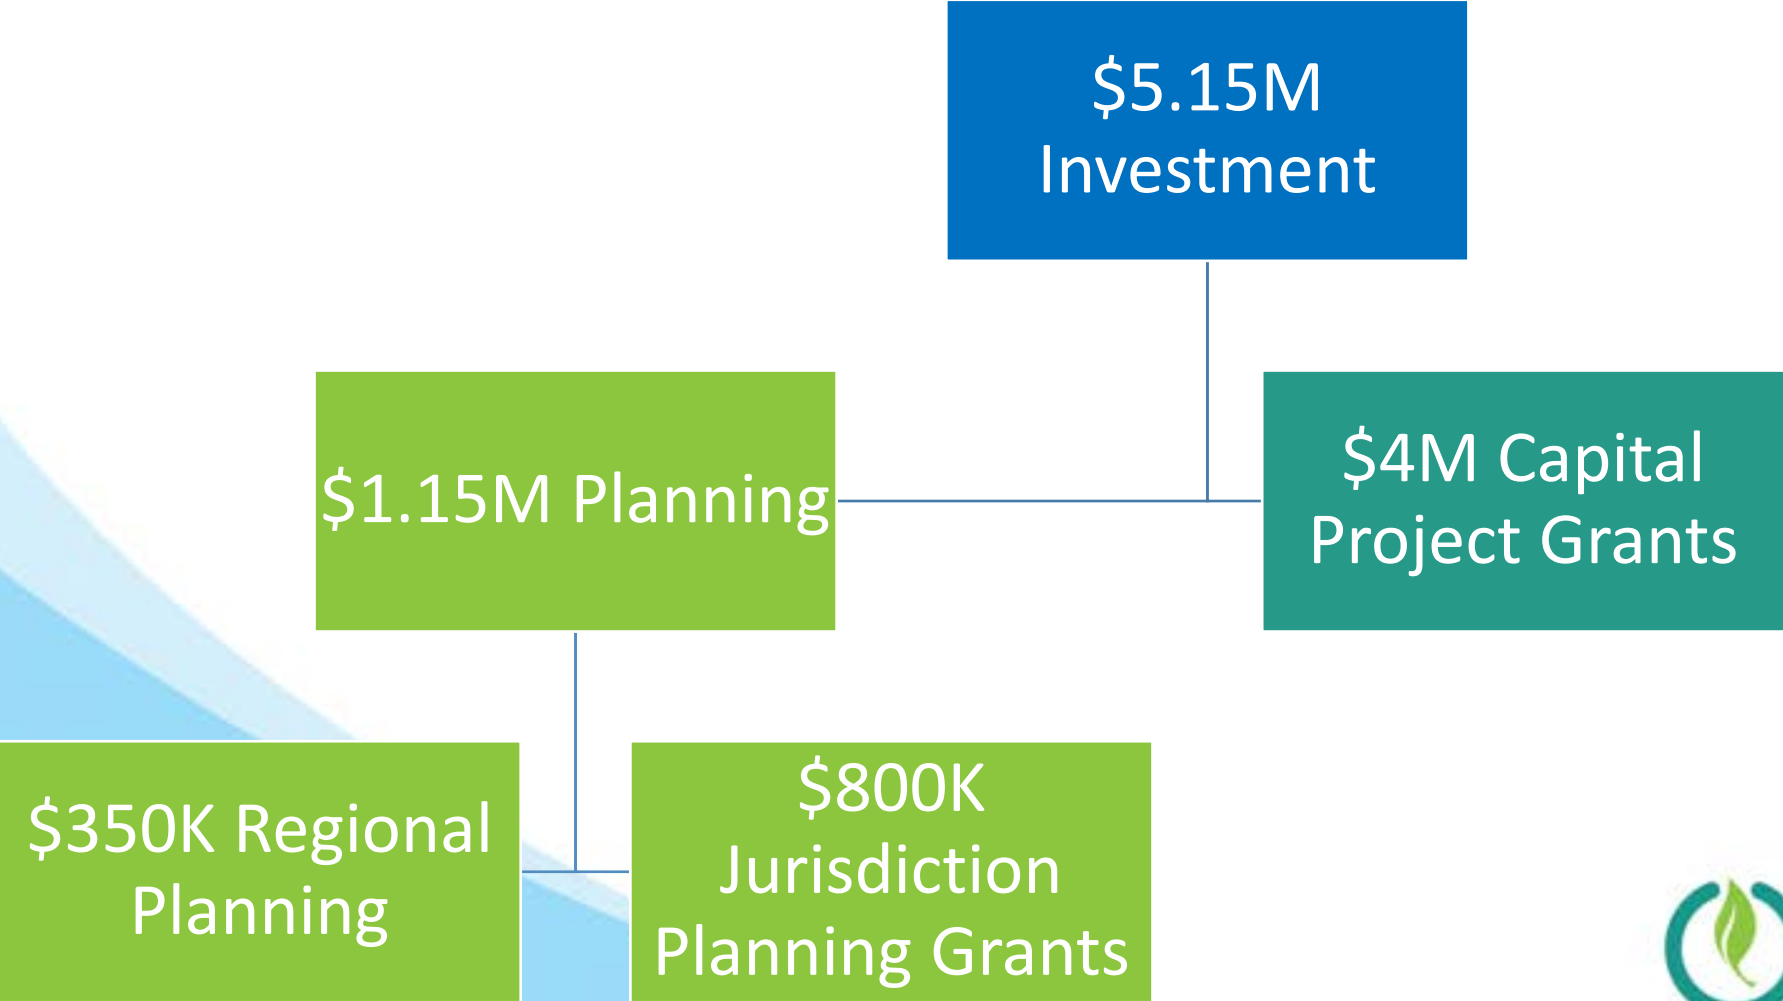

## Planning

- Supplement climate resilience plan
- Cost benefit analysis to inform resilience investments
- Community engagement

## Capex

- Solar + storage back-up systems
- Resilient EV charging
- Portable batteries to support medically fragile customers

# Investing Over \$5M in Energy Resilience
